appeinted in this, they are compelled to submit a brief statement in their behalf.

EIGHTFEN THOUSAND FIVE HUNDRED AND EIGHTY-FIVE persons are now dependent upon this Association for aid. Among these are mechanics, laborers, and an unusual number of sawing women, and widows with young children, who, by failure of work, sickness and misfortune, are exposed at this inclement season to cold, hunger and nakedness, and without charitable assistance, must severoly suffer-perhaps perith. For a time, some of the unemployed were able to fall back on their previous earnings, and when these failed, the Association interposed for their relief. But their numbers have so rapidly multiplied by the increased contractions of labor as Winter advanced, that, without enlarged liberality, the Board can neither sustain the pressure now upon it, nor, without risk of suffering, reduce the number of the recipients. There having, meanwhile, been no public excitement touching the wants of the poor, the actual destitution has been greatly underrated. Funds, consequently, have come in slowly and sparingly. Some have given liberally: others have either diminished their contributions, or, supposing they were not needed, have mistakingly withheld them altogether. Hence it is that at this period of the Winter, the month of February, when the destitution is always greatest and suffering the most severe, the Association is left without adequate meannof re-lief. What more need be said to touch the hearts of our citizens, so famed for their liberality? The pieca is not for distant strangers who have claims on others, nor for the debased and outcoat; but for the virtuous, powerty-stricken poor at our own doors, who have none to care for them but ourselves. Will not those give who have given before, and those who have not to given, give the more? Give freely, give unstintedly: for thus shall it be measured to you again. It surely cannot be that the pitcous cryo dominated in the present urgent pressure is not owing to an increase of destitution a mis

NEGROES AND NEGRO SLAVERY-THE FIRST AN IN-FERIOR RACE-THE LATTER ITS NORMAL CONDITION. By J. H. Van Evrie, M. D. Price \$1.

THE DOCTORS DIFFER.

The Boston Post says: "This is a learned and interesting volume, indicating great research and ability, and should be read by all desirous of possessing full information upon the subject

discussed."

The Boston Transcript (Republican) says: "The author has discovered a 'higher law,' which deems the 'nigger' to bondage. The book being evidently written for the purpose of giving mean men a scientific excuse for their meanness, ought to make the

The book being evidently written for the purpose of giving uses as lessertific excuse for their meanness, ought to make the writer's fortune."

The New-York Churchman (Episcopal) says: "Dr. Van Evrie, who is one of the able and talented editors of The New-York Day-Book, has evidently spent considerable time and labor in elaborating all the physiological arguments which can be brought to hear upon the question of the interiority of the negro race to the Caucasian. From this fact, which he establishes conclusively, showing that the negro differs from the white men, not more in the color of his with than in his whole bodily organization, the author draws the inference that the two races are not providentially designed to occupy similar positions in society."

"We accord to it our highest praise and commendation. It bears upon every page the evidence of deep ethnological research, of profound consideration and great originality of thought. The writer, with the bold hind of a master, strips off the false covering and dignise throws over this subject by the mock philanthropist and political demegague, and arrays a mass of facts and arguments that are perfectly irresistible, in proof of his position. The production of this work was demanded by the necessities of the times, and will be of incalculable service to the true friends of rational progress, by its influence in correcting existing error and removing mischlevous delusions. If we had the power, we would be glad to place a copy of this work in the bands of every voter in the country, confident that its effect would be to dispel the ignorance and misconception that has led astray a large portion of the Northern mind in regard to the subject of Slavery."

"Quren Victoria and Royalty in The New World.
Among the pleasant souvenirs of the visit of the Prince of Wales
to this country we may include the following letter from Queen
Victoria, through her Secretary. Sir Charles Phipps, C. B., Keeper of her Majesty's Privy Purse, to Mr. Kinahan Cornwallis, who,
in connection with this journal, traveled with the royal party
throughout their teur on this continent. In accepting and thanking him so gracefully for the copy of his book relating to her son's
travels, the Queen has paid no common compliment, for it is
well known that it is contrary to the usual coutom for her to receive gifts of any kind, either from her own subjects or foreign
citizens. The exception to the rule in this case shows that an
impartial narrative and reliable history, coming from an American source, of the events of the Prince's progress through this
country, has been properly appreciated by those most intimately
interested. We need only say, in comment, that 'Royalty in
the New World' is worthy to fill the niche so willingly assigned
tin the royal library:"
"Windbox Castix, Jan. 19, 1961.
"Sire: It was only westerdsy that I recred your letter of the the New World' is worthy to fill the niche so willingly assigned it in the royal library:

"Sir: It was only yesterday that I received your letter of the 30th of November, accompanying a copy of your work, entitled "Royalty in the New World; Or, The Frince of Wales in America," destined for her Majesty the Queen. I lost no time in presenting your work to the Queen, and it was very graciously accepted by her Majesty. I have received the Queen's commands to thank you in her name for your attention. I have the bonor to be, Sir, your most obedient, humble servant, C. B. PHIPPS.

"Mainfolky Hall, Caneridge, Jan. 20, 1861.

"Dran Sir: I only received two days ago your letter of the 30th November last. together with two copies of your work entitled 'koyalty in the New World,' and am directed to convey to you the Frince of Wales's thanks for the one which you forward for his Royal Highness's acceptance. I am extremely obliged to you for the other, which you kindly present to me. You have evidently striven to give a faithful narrative of his Royal Highness's acceptance. I am extremely obliged to you for the other, which you kindly present to me. You have evidently striven to give a faithful narrative of his Royal Highness's progress, and of the graiffying reception which he met with both in the British Frovinces and in the United States of America. HOMES for the INDUSTRIOUS

GARDEN STATE OF THE WEST.

THE ILLINOIS CENTRAL RAILROAD COMPANY HAVE FOR SALE

> 1,200,000 ACRES OF RICH FARMING LANDS,

IN TRACTS OF FORTY ACRES AND UPWARD,

OM LONG CREDIT AND AT LOW PRICES.

MECHANICS, FARMERS AND WORKINGMEN. ention of the enterprising and industrious portion of the ity is directed to the following statements and liberal in-ILLINOIS CENTRAL RAILROAD COMPANY, Which, as they will perceive, will enable them, by proper energy, perseverance and industry, to provide comfortable and permanent homes for themselves and families, with, comparatively speaking, very little capital:

LANDS OF ILLINOIS.

No State in the Valley of the Mississippi offers so great an in ducement to the settler as the State of Illinois. There is no por-tion of the world where all of the conditions of climate and soil as admirably combine to produce those two great staples, corn and wheat, as the prairies of Illinois.

RICH ROLLING PRAIRIE LANDS. The deep rich loam of the prairies is cultivated with such wonderful facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The srea of Illinois is about equal to that of England, and the soil is so rich that it will support twenty millions of people.

EASTERN AND SOUTHERN MARKETS.

These lands are contiguous to a Railroad 700 miles in length which connects with other roads, and navigable lakes and rivers thus affording an unbroken communication with the Eastern an which connects with other re thus affording an unbroken of Southern markets.

APPLICATION OF CAPITAL.

Thus far capital and labor have been applied to developing the soil; the great resources of the State in Coal and from are almost anteuched; the invariable rule that the mechanic arts flourish beat where food and fuel are cheapest, will follow at an early day in Illinois; and in the course of the next ten years the natural laws and necessities of the case warrant the belief that at least FIVE HUNDRED THOUSAND PEOPLE will be encessed.

RAILROAD SYSTEM OF ILLINOIS. Over \$100,000,000 of private capital have been expended on the railroads system of Illinois. Inasmuch as part of the income from reveral of these works, with a valuable public fund in lands, go to diminish the Sinte expenses, the taxes are light, and must, consequently, every day decrease.

THE STATE DEBT.

The State Debt is only \$10,105,398 14, and within the ast three years it has been reduced \$2,969,746 89; and we may easonably expect that in teu years it will become extinct. PRESENT POPULATION.

The State is rapidly filling up with population; 163,026 persons having been added since 1630, making the present population 1,719,425—a ratio of 162 per cent in ten years. AGRICULTURAL PRODUCTS.

The agricultural products of Illinets are greater than those of any other State. The products sent out during the past year exceeded 1,500,000 tuns. The wheat crop of 1899 approaches 35,000,000 bushels, while the corn crop yields not less than 140,000,000 bushels. FERTILITY OF SOIL.

Nowhere can the industrious farmer secure such immediate results for his labor as upon these prairie soils, they being com-posed of a deep, rich loam, the fertility of which is unsurpassed by any on the globe. TO ACTUAL CULTIVATORS.

Since 1854 the Company have sold 1,300,000 acres They sell only to actual cultivators and every contract contains an agreement to cultivate. The road has been constructed through these lands at an expense of \$30,000,000. In 1850, the population of the forty-nine counties through which it passes was only 335,598 since which, 479 293 have been added making the whole population 814,891-a gain of 143 per

EVIDENCES OF PROSPERITY. As an evidence of the thrift of the people, it may be stated that 600,000 tuns of freight, including 3,600,000 bushels of grain, and 250,000 barrels of flour, were forwarded over the line last

EDUCATION. Mechanics and Working Men will find the Free-School system encouraged by the State, and endowed with a large revenue for the support of schools. Their children can live in sight of the Church and School-House, and grow up with the prosperity of the leading State in the great Western Empire.

PRICES AND TERMS OF PAYMENT. The prices of these lands vary from \$6 to \$25 per acre, according to location, quality, &c. First-class farming lands sell for about \$10 or \$12 per acre, and the relative expense of subdaing prairie land as compared with wood land is in the ratio of duing prairie land as compared with wood land is in the ratio of 1 to 10 in favor of the former. The terms of sale for the bulk of these lands will be

ONE YEAR'S INTEREST IN ADVANCE, at six per cent per annum, and six interest notes at six per cent, payable respectively in one, two, three, four, five, and six years from date of sale; and four notes for principal, payable in four, five, six, and seven years from date of sale; the contract stipulating that one-tenth of the tract purchased shall be fenced and cultivated, each and every year, for five years from the date of sale; at that at the end of five years one-half shall be fenced and under cultivation. TWENTY PER CENT WILL BE DEDUCTED

from the valuation for cash, except the same should be at six dollars per acre, when the cash price will be use dollars.

Pamphiets descriptive of the lands, soil, climate, productions, prices, and terms of payment, can be had on application to J. W. FOSTER, LAND COMMISSIONER, ILLINOIS CENTRAL RAILEGAD, Chicago, Illinois, For the names of the Towns, Villages, and Cities situated upon the lillinois Central Railroad, see pages 138, 139, 130, Appletons' Railway Guide.

OVER EXCITEMENT, and the mental care and anxiety

(F) Handachn is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light, it may be looked on as a safeguard intended to give notice of disease which might otherwise ecapes attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idopathic. Symptomatic Headache is exceedingly common, and is the precursor of a great variety of diseases, among which are Apopleary, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick-headache of hepatic disease, constituting bilious headache, of worms, constipation, and other disorders of the bowels, as well as reason and uterine affections. Diseases of the heart are very frequently attended with Headaches; Ameuic and plethers are also affections which frequently occasion headache. Idopathic Headache is also very common, being usually distinguished by the name of apparently sound health, and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or scerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and nometimes provoking vomiting; under this class may also be named Neuralgica.

FACT WORTH KNOWING.—Spaiding's Cephalic Pills are a cer-tain cure for Sick Headache, Hillous Headache, Nervous Head-ache, Costiveness, and General Debility.

CONSTIPATION OR COSTIVENESS.

No one of the "manly ills flesh is helt to" is so prevalent, as little understood, and so much neglected as Contiveness. Often originating in carelessness, or sedentary habits, it is regarded as slight disorder, of too little consequence to excite anxiety while in reality it is the precursor and companion of many the most fatal and dangerous diseases, and, unless early available highter evils, of which costiveness is the unsul attendant, are Headache, Colle, Rheumatism, Foul Brea'b, Piles, and others of like nature, while a long train of frightful diseases, such as Mailgnant Fevers, Abcesses, Dysentery, Diarrhea, Dyspepsia, Apoplary, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Meisurcholy, and Insantty, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take an independent existence, unless the cause is eradicated in an early stage. From all these considerations, it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect over a four of CEPHALIC Pills. So the first appearance of

distention whenever it occurs, and no person should to get a box of CEPHALIC FILLS on the first appears the complaint, as their timely use will expel the insidiproaches of disease, and destroy this dangerous foe to hum CEPHALIC PILLS
